Session 07 Preview: Trauma and Coping Strategies

This document provides a redacted preview of Session 07, focusing on coping mechanisms and their impact. The full session includes interactive exercises and detailed facilitator scripts for peer-led discussions.

Key Topics:

- Understanding adaptive and maladaptive coping strategies.
- The role of dissociation in high-functioning individuals.
- Developing healthier regulation techniques.

Note: This is a preview. Sensitive examples and detailed discussion prompts have been omitted for brevity and to protect participant privacy. The full session is available to licensed institutional partners.
